Municipality	Initial idea	Idea competition	Contract Land + Dvlpmt.	Renovation Station Square
PT Operator	Participation Technical Design			
Land owners			Selling land	
Real Estate Developers			Real estate development	
General Public			Participation process	

# A COMPLICATED EXAMPLE

# SWIMLANE PROCESS CHART

## Flipchart & Post-it Method

## Tasks

1. Select 1 measure that you want to focus on in order to make commuting more sustainable (Remember: Transnational Strategy);
2. Think about who will be stakeholders in the process, and write down with post it.
3. Then, let us get started:
  - What is the starting point?
  - What process is needed?
  - Which stakeholder is responsible for it?
  - What is the time needed for each process?
4. At the end: present it to the others
